## TREACHEROUS-DANGEROUS

Contagious Blood Poison is the most treacherous of all diseases It has its victims in its power almost before they realize its presence; because its first symptom, which is usually a little sore or pimple, is so insignificant that it does not cause alarm, or even excite suspicion. But notwithstanding the outward symptoms are not manifested in the beginning, this insidious poison is at work on the blood, and in a short time the patients find themselves diseased from head to foot. The mouth and throat ulcerate, the hair begins to come out, a

rash breaks out on the body, copper-colored spots, and even sores and

ruin their innocent lives. Contagious Blood Poison is too dangerous to trifle with. No time should be lost in ridding the blood of this insidious poison; and in no disease is it more important that the proper remedy be used. Medicines which merely check the symptoms for a time and leave the real cause smouldering in the system, have brought misery and despair to thousands. Faithfully the sufferers took such treatment, and when all outward signs had disap-

my experience with your med-icine, S. S. S. My son contract-ed Blood Poison, and had an ed Blood Poison, and had an ugly abscess to form on his leg and he had all the other well known symptoms. He tried other medicines without any benefit, and I then had him to take S. S. S. After he had taken several bottles the improvement was very gratifying, and so he continued its use. A thorough course of S. S. S. cleansed his blood and cured the disease. The ulcer healed nicely, and he has since been in good health.
